RECON HYDRAULIC ENGGS.

Company Profile

Since its formation in late Nineties, **Recon** has seen years of continuous growth and customer satisfaction.

Recon offers a wide range of hydraulic equipments, which have diverse applications in varied industrial and infrastructure projects. Our range of products have been known for Quality, Reliability & Performance. Our highly skilled engineers can advice and offer solutions to all your hydraulic needs.

Our hydraulic equipments are manufactured as per the international quality standards and also comply with the stringent international safety norms. We even offer customised solutions depending upon your specific needs and requirements.

Our clients can avail from us, a high performing range of hydraulic press machines that is available in the capacity of 25 tons to 50 tons. Suitable for different types of heavy duty works in different commercial and industrial applications, these hydraulic press machines reckoned among our clients. These hydraulic presses are subject to customization at the discretion of our clients. These presses can be used for cutting, punching, compression molding etc.

Our Team

We are supported by an adroit team that enables us in making quality assured products to our valued clients. Owing to their experience in the domain, we have attained a conspicuous position in the market. In order to serve our clients in the best possible manner, our team works in close coordination with each other. This team includes procuring agents, production managers, quality inspectors, sales & marketing experts, packaging professionals and many more.

Quality

Quality has always been our forte and to achieve this, we have established strict quality policies, which are followed within the organizational hierarchy. Each of our manufactured machineries undergoes a series of strict inspection procedures that minimize every possibility of quality degradation. The finest quality of raw material is used which are tested at our quality testing unit before they are used in the production. We possess a team of quality analysts who stringently investigate all our proceedings so that we provide our clients with a quality integrated range.

» Hydraulic & Pneumatic Accessories

Our Products

» PLASTIC INJECTION MOULDING MACHINE

Fully Automatic
P.L.C & Servo Operated
Capacity: 100gm to 5000gm

» PLASTIC INJECTION MOULDING MACHINE

Semi Automatic
4 Plates & 3 Plates

» PLASTIC INJECTION MOULDING MACHINE

P.L.C Operated with Energy Saving Mode, Low Noise

Hydraulic & Pneumatic Accessories

Our Products

» **PAD PRINTING MACHINES**
Single & Double Color

» **HYDRAULIC PRESS C FRAME**
150 ton Foot Operated

» **VERTICAL INJECTION
MOULDING MACHINE**
P.L.C Operated & Manual

» **HYDRAULIC BUMP PRESS**
1000mm x 1200mm With Auto
Ejector

» **BUNDLE PRESS**
15 k.g Auto Operated
Manual Tie

» **HYDRAULIC POWER PACK**
Custom Built Special Purpose
High Pressure Low Noise

Hydraulic & Pneumatic Accessories

Our Products

» MULTI DRILLING MACHINE

Auto Clamping & Drilling With
Auto Rotated 16 Drill with 90°
Drilling with high speed

» HYDRAULIC SCRAP BUNDLE PRESS

5 Action Jumbo Type Auto Ejector with
Mass Production & Low electricity Consumption

» HYDRAULIC DEEP DRAW PRESS

400 Ton Fully Automatic 1000mm x
2000mm with Ejector High Speed Press
1mm to 10mm Sheet

» HYDRAULIC BUMP PRESS

700mm x 1000mm With Auto
Ejector

Hydraulic & Pneumatic Accessories

Our Products

» SHAFT TURNING MACHINE

OD 5mm to 60mm
Length: 100mm to 500mm
Auto Loading & Auto Turning

» CNC TURNING MACHINE

CHUCK SIZE: 100mm to 250mm
Turning Length: 100mm to 300mm
Accuracy with in 50 micron

» HYDRAULIC SCISSOR LIFTING TABLE

Maximum Capacity 100kg. to 3000 kg.
Maximum Height 400mm to 3000mm

» HYDRAULIC PALLET TRUCK

500 kg. to 5000 kg.

» OIL FILTRATION MACHINE

All kind of oil & Lubricate will be
Filter with in 100 micron
10 LPM per minute

Hydraulic & Pneumatic Accessories

Our Products

» BAR- B- QUE

4 RODS for 16 Birds with auto rotations **LPG/ELECTRICAL**
Operated Food Grade Material & Highjanic Oven

» CHICKEN PROCESSING MACHINE

Automatic Kabab Mixing & Processing Machine

» KABAB MAKING MACHINE

10 kg. to 20 kg. automatic seek Kabab & Sausages making machine hydraulic operated with speed control

» DONNER KABAB MACHINE

Sorma making Auto rotating & manul control with LPG & Electrical Heater Burner

» ELBOW BENDING MACHINE

Induction Control with mandrel & angle control System with high accuracy Bend By Servo Control System

» U BOLT BENDING MACHINE

8mm to 30mm Cold & Hot Bending with Profile Guided bars
